

Terry N Taylor

Originally from Scotland, Terry Taylor is the Head of the Working Environment Information Unit (WEIU) at the European Agency for Safety and Health at Work, based in Bilbao, Spain. He has extensive experience of designing, implementing and regulating occupational safety and health programmes in high reliability industries with over 16 yrs operational experience in the North Sea Oil industry followed by 15 yrs in the Nuclear industry, mostly as a Regulator in the topic of Human Performance with the Canadian Nuclear Safety Commission, then with the IAEA in the development of its Safety Culture promotion service. His current focus, and that of the WEIU which he manages, is on collating, disseminating and promoting the use of “Good Practice” information for the prevention of occupational safety and health injuries in the European Union. Terry, who is qualified in Chemistry and Psychology, is married and has two children, both of which now live and work in Canada, whilst he and his wife, Yvonne, live with their “wee Scottish dog” and cat in Bilbao. He enjoys reading, cycling, and playing guitar (very badly!).
